

The Trade Technical College South Campus projects will include two five-story classroom buildings, underground parking and a new athletic field. A demolition ceremony to make room for these projects took place on May 31, 2006.

LOS ANGELES TRADE TECHNICAL COLLEGE

Los Angeles Trade Technical College is located in the South Park section of downtown right along the Metro Blue Line and the future Exposition Line. Thanks to Prop. A/AA funds, new construction and modernization of existing facilities are going forward full steam. The school year ended with the ceremonial beginning of the South Campus project, which will include two new five-story classroom buildings and a new parking garage that features a track and athletic field with synthetic turf on the roof. Earlier, groundbreakings for a new Child Development Center and the Olive Street Parking Structure took place, signaling the beginning of major construction.

COMING OVER THE NEXT YEAR

Child Development Center completion

South Campus site clearance
