### **DSA 101 Customer Survey-LACCD**

The DSA 101 is a new presentation designed to educate all parties involved in the planning, design and construction process of educational facilities and other governmental buildings on the role and responsibilities of DSA and provide an outline of our services and processes.

Please take a few moments and give us your input on the following questions by completing this survey now and turning it in to the speaker or you may fax your responses to Deborah W. Furlow, DSA Academy Manager at 916/445-3521. Please fax your responses no later than November 30, 2005. Thank you in advance for your comments.

Questions:

1. Was the information provided in the presentation useful?
2. Did you learn something about DSA that you didn't know already (please tell us what it was)?
3. Did the presentation answer all of your questions (if not, what questions do you still have about what DSA does)?
4. Do you have any suggestions on other information that should be included in this presentation?
5. Would it be helpful to have this presentation on the DSA Academy website?

Please provide us with your name, phone number and email address so that we may follow up with you as necessary.
